

## WS-2 Wall Mounted Switch Panel With Lighted Switches and Trim Plate

### BENEFITS

- Durable White Nylon face and trim plates
- Complete with pre-wired lighted control switches

### Design Information

WEIGHT 2.2 oz (63 g)

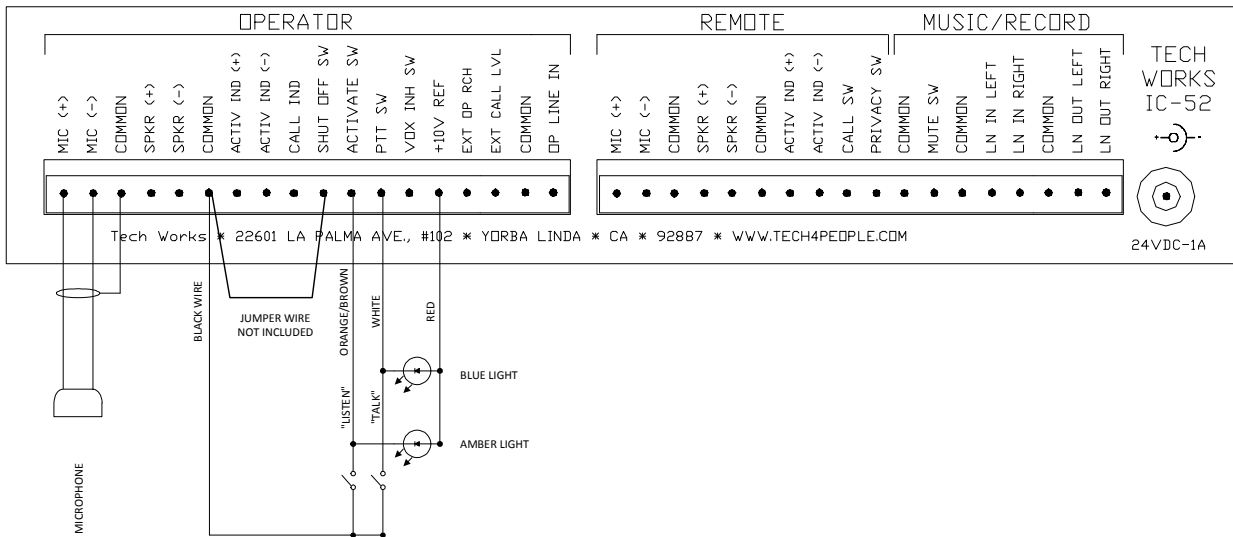

DIMENSIONS 5" X 5"

The WS-2 is a Wall Switch panel that includes 2 Lighted Rocker Switches mounted on a White Nylon Deco wall plate and a two gang dual Deco trim plate. This is intended as a companion for the HM-1 hidden microphone (sold separately) when wall mounted as an operator location. With its pre-wired cord it is perfect for those locations where some user control is required. The Amber switch is typically used to mute and un-mute the ceiling speaker and the Blue switch is typically used to mute and un-mute the microphone.

### Architects' and Engineers' Specifications

The Two Lighted Rocker type switches shall be mounted on a white Nylon Deco style wall plate for remote control of system functions. The microphone element shall be mounted on a similar plate next to the switches. Both the microphone and the Wall Switches shall be trimmed with a two gang Deco White Nylon wall plate.

The Wall Switches shall be Tech Works WS-2 Lighted Control Switches.
