There are situations when casino staff, cashiers, bailiffs, court clerks, judges in the courtroom or in chambers, or a counselor at a mental health clinic require assistance to quell a disturbance or handle a potential security threat. Tech Works Duress Call is designed to summon assistance silently by the use of hidden call switches under tables, desks, or counters to avoid agitation of the offending parties. Obviously a robust, simple to use system is required for this duress alarm application.

Duress alarm is an advanced technology communications system comprised of intelligent modules designed to provide data collection and output. Hidden call switches will summon bailiffs and marshals to a particular location. Centrally located alarm panels, corridor lights and/or wireless in-house pager networks are options. Wired or wireless, audible or silent we have the correct appliances for your application. The Duress Call duress alarm system is flexible to adapt to all methods of operation for security. Ease of installation helps in maintaining an extremely competitive installed cost. Expansion possibilities are almost endless both in the scope and functionality of the system.

“When trouble happens, it’s great to know I can call for help!”
