Tech Works is a leader in audio and communications for the Healthcare industry and the Corrections industry. So it's not surprising that Tech Works has the answer when it comes to the highly specialized requirements of audio for Prison Hospitals and Infirmaries.

Combining high quality, high powered sound and simple, easy-to-use interface with rugged, tamper-proof composition, Tech Works VC Series systems for correctional facilities satisfy the need to communicate with the safety and security that matters in the harshest environments. And they are easy to install, economical, and maintenance free.

Features

- Direct Contact** An audio station at the bedside and a push-button in the restroom means you don't have to leave your post to answer a call
- VC Series** Assisting an inmate is as easy as answering a telephone
- Optional PC** Can be added for reporting to monitor staff efficiency and activity
- ADA Compliant** Call switches feature visual call acknowledgement
